

Testimony of Chantal - 11 Juin 2017

I discovered Agapé with Paul & Ann and this baptism is symbolic to me. It is the passing of a death, to a better reborn. I let my past break away from me, and give way to my re-birth.

When we are children we are baptised at the will of our parents. Today, it is I who has decided, and I am to feel it by being surrounded by true, sincere and loving people. .

Complete immersion is is important and fundamental to me as water is the the essence of our soul and body. It gives me the power to reach the mountains of life of which I dream.

Thank you for inviting me to Agapé to meet these extraordinary people filled with love, your humble healers. I asked you to let me build, to sweep and push away all those who would dirty my passage or hinder yours.

I will never forget 11th June, 2017. Thank you Jesus.
